Closure Systems International (CSI) is a global leader in closure design, manufacturing, and high-speed application systems. Our experienced team can deliver closure solutions to give your products a competitive advantage in any market.

- ✓ **Total closure and capping systems solutions**
- ✓ **Product innovation partner to top brands**
- ✓ **Trusted supply source of high-quality materials**
- ✓ **Capping equipment with unparalleled customer and technical service**
- ✓ **Supporting corporate sustainability goals**

PRODUCT SPOTLIGHT

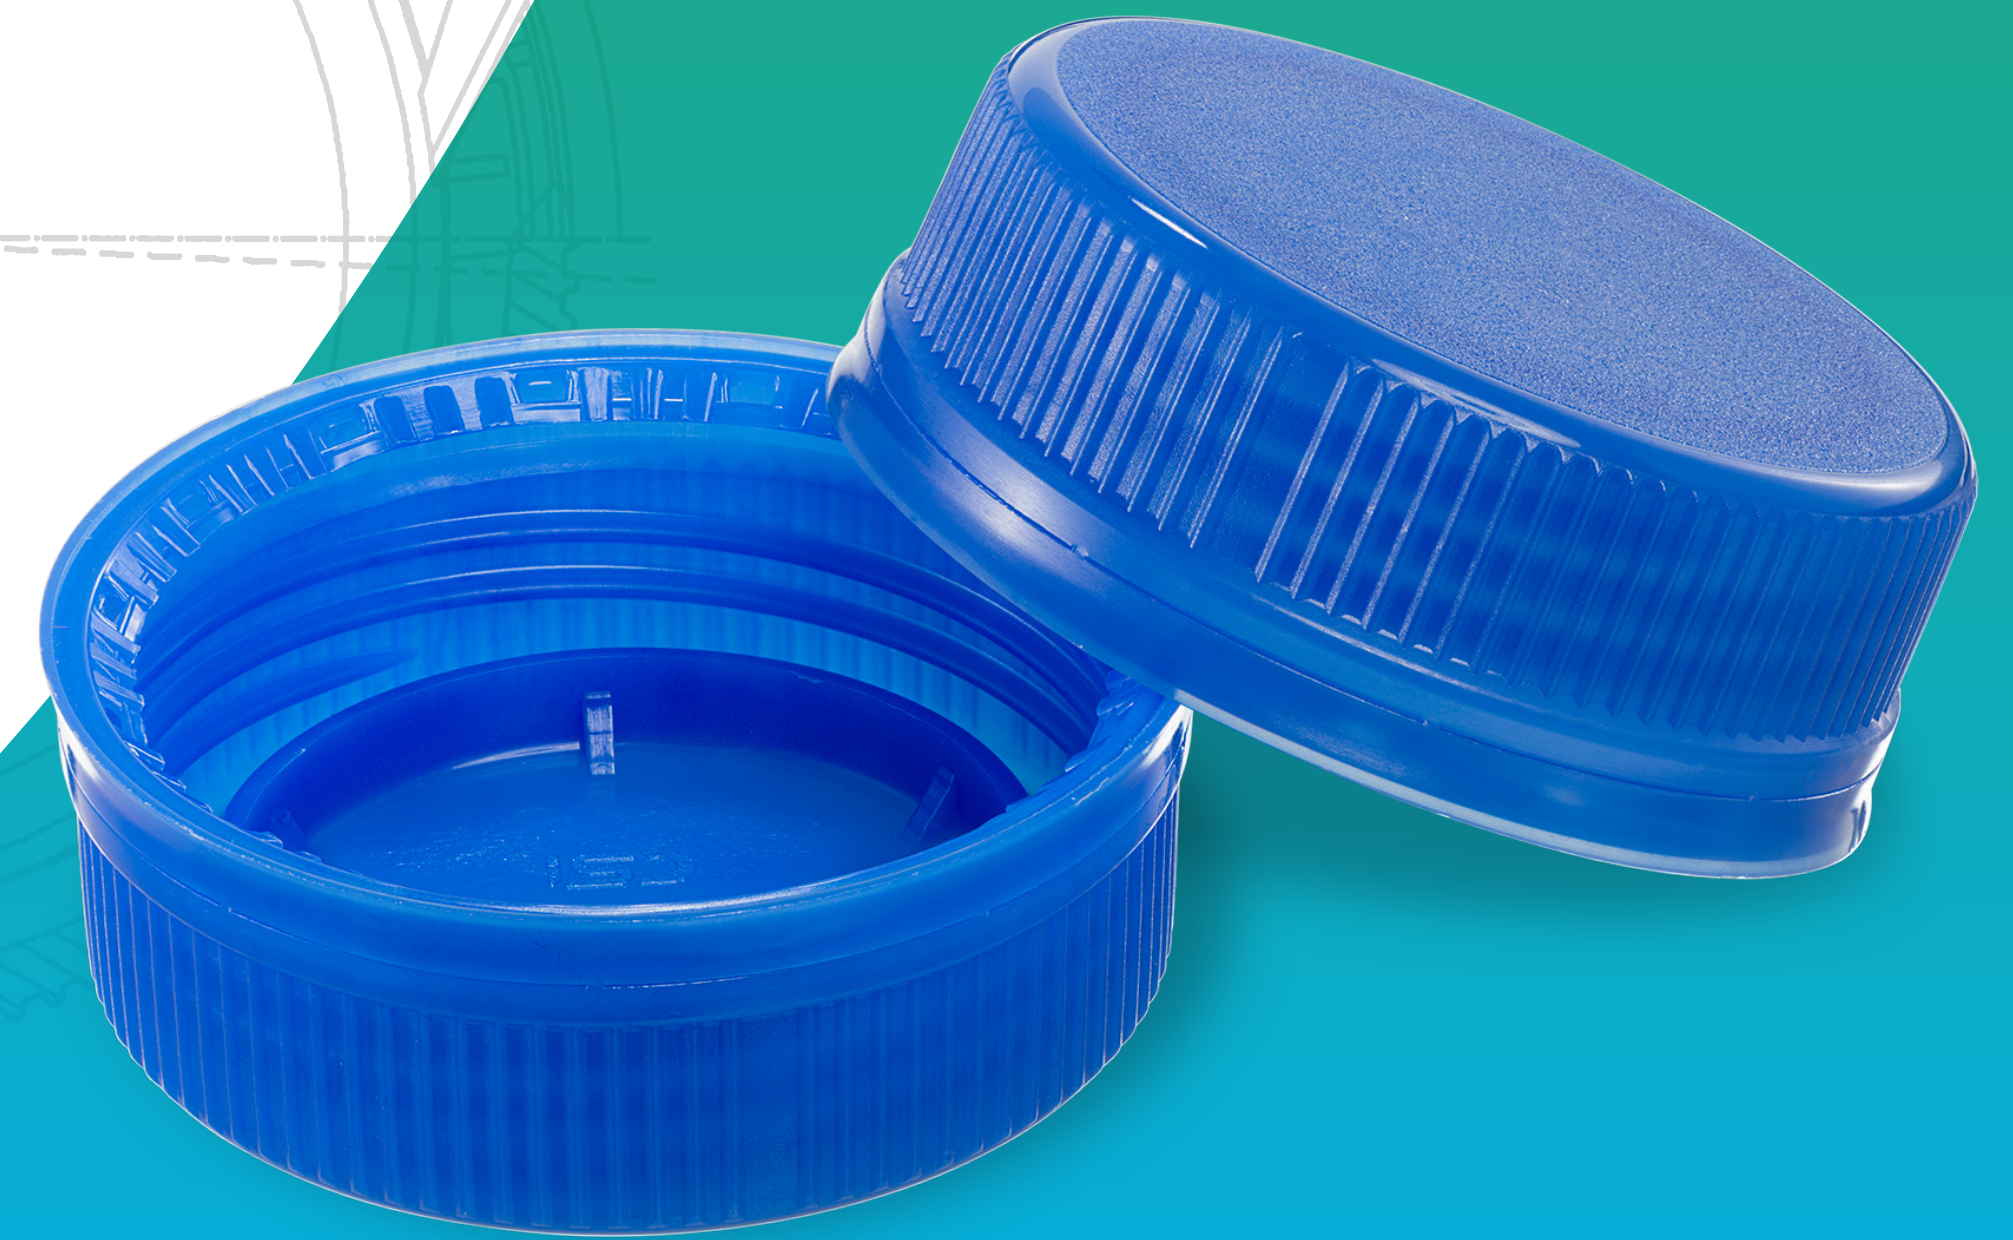

38D-KL

Our 38D-KL closure is a one-piece, light-weight, high-performance design ideal for cold-filled dairy and non carbonated beverages. This new closure provides brand owners a drop-in solution over incumbent suppliers.

Designed for Performance

- ✓ 3 lead HDPE finish, screw-on closure for dairy, juice & tea
- ✓ Drop down tamper band with pull up marks for improved application
- ✓ Dimensionally interchangeable and chuck-compatible with existing industry closures
- ✓ Strip torque improvement over incumbent on HDPE bottles

38D-KL closures deliver improved application performance and enable maximum bottler efficiency and reduced total cost of operations

PRODUCT SPOTLIGHT

38D-KL

Our 38D-KL closure delivers the quality you expect, performance you demand, sustainability the world deserves.

Secure sealing, consumer-friendly to open and use

Sustainable — produced in up to 100% FDA approved Post Consumer Recycled (PCR) materials

Precision engineered for reliable performance on HDPE and PET dairy bottles

Superior shelf appeal — available in debossing, 14 colors, clear and 2-color top print

Improve Your Brand Impressions with Top Print Closures

Distinguish your product on shelf for today's consumer!

CSI's 38D-KL top print closure advantages

- ✓ Up to 2 colors, PMS matching
- ✓ All inks are FDA approved
- ✓ Great for contests & call-outs
- ✓ No sticky adhesives or impact to recycling
- ✓ Short lead time on tooling
- ✓ No interference to production lines
